Mobile Storage Systems Enjoying Renewed Success
Jones, Virginia
Office v112n2 PP: 12, 14 Aug 1990
ISSN: 0030-0128 JRNL CODE: OFF

...ABSTRACT: appearance, mobile storage units are enjoying renewed success
as a less expensive method of housing **organized** records. These **storage
units** , mounted on tracks, allow faster file **access** for limited
personnel operations by shortening the travel path to access files and
requiring less effort to open a track file **system** than to open a loaded
file drawer. Because of the high cost of the equipment...

...than in records centers, where low facility and housing costs are part
of the management **program** . Two track-flooring **systems** are available
for mobile storage **systems** - flush to the floor and deck mounted - along
with 4 types of mechanical **systems** : 1. manual, 2. manual lateral, 3.
mechanical assist, and 4. electrical. Manual mobile storage **systems** are
recommended for lighter weight loads and low-volume retrieval.

**BRS recasts its mainframe text retrieval system for Unix. (BRS Software
  Products Inc. introduces BRS/Search 6.1) (Product Announcement)**
Computergram International, CGI03090018
March 9, 1993
DOCUMENT TYPE: Product Announcement   ISSN: 0268-716X   LANGUAGE:
  ENGLISH   RECORD TYPE: FULLTEXT
WORD COUNT: 374   LINE COUNT: 00031

...   to search and retrieve specific documents, on the basis of their
content, rather than on **indexed   component   labels** . BRS/ **Search** can
handle large volumes of unstructured textual information by **recording** the
position of every word. In comparison, traditional document management
systems developed on top of relational database management **systems** rely
on a pre-defined indexing **system** , which sub-divides a document by title
and paragraph, not on its content as such...

...statistics on word occurences. The BRS/Thesaurus is a library of
heirarchical word lists. The **system** also includes BRS/Demon, a data entry
editor; BRS/Native Mode, graphical toolkit for command...
...displays of heirarchial structures like the thesarus and tool boxes. BRS
is currently developing Win32 **application** programming interface
extensions for Windows NT which will be available by the end of the year.
BRS users are predominantly found in the legal, government, security and
publishing sectors. The **system** can search up to 16 databases
simultaneously and works with a variety of relational database **systems** ,
including Oracle, Informix, Ingres and Sybase. Available now, the **system**
is priced from #2,000, depending on the number of users and **system** . The
company, which has four US and four European offices, has branched out
further and...
